

PRO-MAC ELITE CONFERENCE CHAMPIONSHIPS

PRO-MAC ELITE rankings will be determined by the point totals earned by a competitor at 11 out of the 14 PRO-MAC tournaments and will be the basis for our year-end awards including Conference Champion Jackets.

The PRO-MAC ELITE Divisional Winners and Top 5 are determined in each rated tournament division by the point totals earned by a competitor at 11 out of the 14 PRO-MAC tournaments.

The PRO-MAC ELITE Conference Champions are determined by the point totals earned by a competitor at 11 out of the 14 events in the rated Grand Champion divisions.

PRO-MAC REGION CHAMPIONSHIPS

Region rankings will be determined by the cumulative point total earned by a competitor at events within that region. All PRO-MAC events have been designated as an event in either the South, Central, or West region. See list below.

Conference members may track points in any region. Competitors do not have to designate a membership in any particular region in 2019.

Points earned at every PRO-MAC event a competitor attends within the 2019 designated regions will be used to determine the PRO-MAC East and West Divisional Winners; East and West Divisional Top 5; and the East and West Region Overall Grand Champions.

The PRO-MAC Region Divisional Winners and Top 5 are determined for each rated tournament division by the cumulative point totals earned by a competitor at tournaments within each designated region.

The Region Champions in all regions are determined only by the cumulative point totals in the Grand Champion divisions earned by a competitor at tournaments within each designated region.

NOTE - if you only attend and place in one region, you will only earn regional points towards awards in that region and toward the PRO-MAC Elite Rankings. However, a competitor who attends and places in tournaments in both regions will earn points in both regions he or she has competed in and point totals from both regions will accumulate toward the PRO-MAC Elite Rankings.
